## PROJECTS

### Prescripto - Medical Appointment Booking App

[Github](#) / [Live](#)

Tech: React, Node.js, Express.js, MongoDB, Tailwind, Stripe, Razorpay, JWT, Cloudinary, Bcrypt

#### - Key Highlights :

- Built a full-stack MERN application enabling real-time doctor appointment bookings with 100% conflict-free slot validation.
- Integrated Razorpay & Stripe, facilitating secure online transactions with a 100% success rate in test environment.
- Engineered JWT-based authentication and bcrypt hashing, ensuring user data protection with zero security breaches.
- Created over 10 RESTful API endpoints, handling patient/doctor interactions and bookings.
- Achieved 100% mobile responsiveness and reduced UI bounce rate by 30% using Tailwind and responsive design practices.

### Imagify - AI Text-to-Image Generator

[Github](#) / [Live](#)

Tech: React, Node.js, Express.js, MongoDB, Tailwind, Razorpay, Clipboard AI

#### - Key Highlights :

- Developed a credit-based AI image generator platform, integrating Clipboard AI API to produce high-resolution images in under 3 seconds.
- Implemented a credit wallet system; users must purchase credits before image generation.
- Integrated Razorpay payments, achieving a 95%+ success rate in payment transactions.
- Reduced average image load time by 40% using optimized rendering and caching.

### Gemini Ai clone - Conversational Web App

[Github](#) / [Live](#)

Tech: React, Tailwind, JavaScript

#### - Key Highlights :

- Developed an AI-powered assistant clone capable of real-time query processing and keyword-based response highlighting, improving user comprehension and interaction speed.
- Added query history tracking, increasing user retention by 20% through better session UX.
- Achieved smooth UI performance with optimized rendering and Tailwind's utility-first CSS.
